- Group Discussion Time for Issues
and Concerns

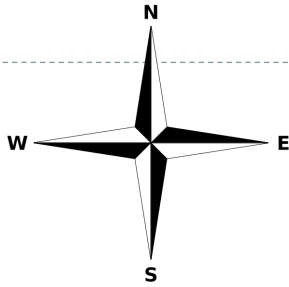

St Johns County Greenway Trails Coalition

Symposium

***Thursday, February 16,
2017***

***Bartram Trail High School
6:30 pm***

St Johns County, FL Greenway Trails Coalition Vision Statement

Our goal is to set aside land for non-motorized, unpaved, multi-use greenway trails to benefit both the St Johns County economy and quality of life.

In addition to offering recreational space for equestrians, off-road cyclists, hikers and naturalists, the Greenway Trails balance corridors and green space preserving the unique ecology of NE Florida. These benefits create a healthier place to work and live throughout St. Johns County.

The Greenway Trails allow for smooth transitions between urban and rural environs; thus, providing connectivity between developed areas and natural preservation areas.

The Greenway Trails are an amenity that will create recreational and economic opportunities through tourism and appreciating land values, while ultimately enhancing the quality of life for St Johns County residents.

Audubon, President

Todd Cejka, Southern Off-Road
Bicycle Association

COALITION HISTORY

A 2016 County Parks & Recreation survey indicated a need for more trails in St. Johns County.

The Greenway and Trails Committee of the St Johns County Horse Council met with Wil Smith and a volunteer partnership was formed.

Other members were asked to join and with their combined efforts the first symposium was held at Pedro Menendez High School.

We are now focusing on our second symposium at Bartram Trail High School.

The future is bright with opportunities for unpaved, non-motorized, multi-use trails in St. Johns County.
